PROFILE

Self-taught web developer specializing in HTML, CSS, JavaScript, and React, with experience building responsive, user-friendly websites and applications. Passionate about clean code, problem-solving, and continuous learning. Currently expanding my skills in backend development with Python.

PROJECTS

Loudly

Voice-Controlled News Reader for the Visually Impaired

- Developed an accessible web app that reads news articles aloud using voice commands, empowering blind/low-vision users.
- Integrated WebSpeech API for text-to-speech and voice-controlled navigation (play/pause/stop).
- Fetches real-time news data via NewsData API with customizable categories (e.g., technology, health).

EaroGames

Gaming Store Landing Page

- Implemented interactive UI elements (hover effects, animated CTAs)
- Designed a responsive landing page for a gaming store with featured products.

Green Haven

Plant Enthusiast Education Hub

- Built an interactive plant-care website with educational resources and species database
- Designed visual filtering system (by plant type, sunlight needs, difficulty level).
- Developed an AI-powered plant identifier using Plant.id API (90%+ accuracy)
